PNE Sustainability Vision

Our sustainability vision is to become an inspiring model for what is possible. We will leverage our partners, site, staff, activities and resources to test new technologies, systems and ways of working to reduce our impacts. Visitors come to the PNE for fun, so we will infuse a sense of fun and discovery into reducing our impact on the planet.

Collaborating to Build Resources

The PNE's approach to sustainability must be genuine, attainable and done with a sense of fun.

As a not for profit organization, the PNE is a self sustaining public space...Everything we do goes into the social fabric of our community.

We must collaborate with our partners to extend our reach of success while at the same time create a field house of memories for our guests and our clients.

In Collaboration with our Partners!
