Minimum Booth Standards & Guidelines

- Back wall height restriction is eight feet (8'). Booths have step-down sidewalls as illustrated below. To ensure that exhibitors have a good sightline from the aisle, displays **must not** exceed the drapery.
- Electrical is a mandatory service and charged per 10x10 booth.
- Exhibitors must confine their exhibit and all other exhibit activities including distribution of advertising material within the limits of their allotted space. Salespeople are prohibited from operating in the aisle or in any other location on the Exhibition site.
- You must install floor coverings or carpet, be properly secured, clean, in good condition and covering the exact dimensions of the booth. Tables must be fully and professionally skirted.
- Product should be attractively presented with adequate light to effectively display it.
- All sales must be in Canadian funds. Refund policy and payment options should be displayed at the point of purchase.
- **NO Handwritten** signs will be allowed including signs indicating prices. All signs must be professionally lettered.
- Booths should be equipped with appropriate fire extinguishers.
- Have realistic objectives. The number of qualified staff, point-of-purchase display, marketability of your product, and aesthetics of your booth and display will dictate your overall success more than the number of visitors who will walk past your booth.

PNE FAIR

EXHIBIT SPACE

It is strongly recommended that all companies refrain from making arrangements to participate until they have received in writing, confirmation that their application has been accepted
