Note: Food preparation and service to the public on site shall not start until your food premises is approved. You may be required to set up earlier before the event time.

REQUIREMENTS FOR FOOD SERVICES

Complete ALL relevant sections in full. Approval is based on accurate information provided and discretion of the Environmental Health Officer. See Guide at: Polynomental Health Officer. See Guide at: Polynomental Health Officer. See Guide at: Polynomental Health Officer. See Guide at: Polynomental Health Officer. See Guide at: Polynomental Health Information provided and Polynomental Health Information provided and Polynomental Health Information provided and Polynomental Health-Information Provided a

Requirements	Check (✓) one or more that applies
Construction of outdoor booth	Booth is indoor
• An overhead cover over all food contact surfaces, equipment, food storage and	Organizer or coordinator will provide cover for outdoor booth
display areas.	☐ Will bring our own tent /umbrella / canopy
 Cooking equipment located away from public to protect food from contamination and 	☐ Will locate cooking equipment away from the public
to prevent injury.	Booth is located on concrete or asphalt
Flooring is a hard, level surface.	Site will provide hard, level surface over grass or dirt
Food is not stored on the ground.	Will bring our own hard, level surface over grass or dirt
	Food will be stored off ground
Hand Washing Station	Plumbed in hand sink available at the booth
*Must be at the booth and operational prior to the start of food handling.	Portable sink in booth with pressurized hot and cold running water
**Public or staff washroom sink not acceptable.	Portable sink shared between booths, easily accessible
Liquid soap in pump dispensers and single-use paper towels.	Will bring our own soap and paper towels, if not supplied by venue
Potable hot and cold running water under pressure and hands free washing.	Hand washing sink or station not needed, food is prepackaged, no
	portioning / handling on site (acceptance is subject to Health review)
Additional Sinks – Warewashing, Dishwashing and Sanitizing Equipment	2-comp sink accessible at the venue
A 2-compartment sink with potable hot and cold running water is	Sink in booth, hook up to a potable supply with a food grade hose
required for complex food preparation, large volume of food handled,	Will bring our own detergent and sanitizer, if not supplied by venue
processing of raw meat/poultry/seafood/fish and warewashing.	Not needed, will bring a sufficient number of utensils
 A commercial dishwasher to wash and sanitize reusable containers and 	On site dishwasher or a dishwashing service is available
utensils used by the public.	No reusable containers for public, use single service utensils only
Sanitizing Solution Sanitizing Solution	Will use 100 ppm bleach solution in bottles on site
 Provide approved sanitizing solution for food contact surfaces in labelled 	Will use 200 ppm Quats solution in bottles on site
containers:	Will have test strips on site to verify concentration
 100 ppm chlorine (2 to 3 ml of unscented bleach to 1L of water). 	☐ Will provide details of approved sanitizer (if not bleach or Quats)
 200 ppm quaternary ammonium (follow label instructions). 	☐ Will use sanitizer wipes (acceptance subject to Health review)
Wastewater Collection/Disposal	Have direct connection to sanitary sewer
Collected and disposed of in the sanitary sewer.	Have an adequately sized holding tank with a disposal service
Not to be drained on the ground or into storm drains.	Container / bucket used, will dispose into a toilet or mop sink
Garbage Collection	Organizer / coordinator to provide containers and collect
Adequately sized bins, leak-proof and disposed of in a sanitary manner.	Will have containers at booth and dispose at venue
	Will have containers at booth and dispose off site
Food Protection	Will use covers, food wrap, sneeze guards, single use disposable
Food shall be protected from contamination.	utensils, individual sampling containers etc.
 Food contact surfaces used to prepare, store and serve food be smooth, non- 	Will use food grade storage containers
absorbent and easily cleanable e.g., stainless steel, rigid food grade plastic.	
	Cutting boards, cooking utensils, tongs, bowls, table top etc., all
	cleanable and non-absorbent
Cold-holding during Transport and On-site	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs
Cold-holding during Transport and On-site • Mechanical refrigeration preferred and may be required OR equivalent method	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s)
Cold-holding during Transport and On-site	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue
Cold-holding during Transport and On-site Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times.	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth
Cold-holding during Transport and On-site Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth Cooler(s) with ice or ice packs at booth
 Cold-holding during Transport and On-site Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times. Maintain internal food temperature at 4°C (40°F) or below at all times. 	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth Cooler(s) with ice or ice packs at booth Food will not require cold-holding
Cold-holding during Transport and On-site Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times. Cold-holding during Transport and On-site Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times. Maintain internal food temperature at 4°C (40°F) or below at all times. Cooking / Reheating Foods to be cooked or reheated to an internal food temperature to 74°C (165°F) or above. Hot-holding during Transport and On-site	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth Cooler(s) with ice or ice packs at booth Food will not require cold-holding Use a stove or oven at the booth with appropriate power supply Use a barbeque at the booth Other equipment, specify No need to cook or reheat Transport in insulated container(s) for hot foods Transport in warming unit(s) Use a stove or oven at the booth Use chafing dishes with adequate fuel supply Use insulated containers Other, specify
 Cold-holding during Transport and On-site Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times. Maintain internal food temperature at 4°C (40°F) or below at all times. Cooking / Reheating Foods to be cooked or reheated to an internal food temperature to 74°C (165°F) or above. Hot-holding during Transport and On-site Maintain internal food temperature at 60°C (140°F) or above at all times. 	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth Cooler(s) with ice or ice packs at booth Food will not require cold-holding Use a stove or oven at the booth with appropriate power supply Use a barbeque at the booth Other equipment, specify No need to cook or reheat Transport in insulated container(s) for hot foods Transport in warming unit(s) Use a stove or oven at the booth Use chafing dishes with adequate fuel supply Use insulated containers Other, specify Food will not require hot-holding
Cold-holding during Transport and On-site • Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times. • Maintain internal food temperature at 4°C (40°F) or below at all times. Cooking / Reheating • Foods to be cooked or reheated to an internal food temperature to 74°C (165°F) or above. Hot-holding during Transport and On-site • Maintain internal food temperature at 60°C (140°F) or above at all times.	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth Cooler(s) with ice or ice packs at booth Food will not require cold-holding Use a stove or oven at the booth with appropriate power supply Use a barbeque at the booth Other equipment, specify No need to cook or reheat Transport in insulated container(s) for hot foods Transport in warming unit(s) Use a stove or oven at the booth Use chafing dishes with adequate fuel supply Use insulated containers Other, specify Food will not require hot-holding Have probe thermometer to use at the booth
Cold-holding during Transport and On-site • Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times. • Maintain internal food temperature at 4°C (40°F) or below at all times. Cooking / Reheating • Foods to be cooked or reheated to an internal food temperature to 74°C (165°F) or above. Hot-holding during Transport and On-site • Maintain internal food temperature at 60°C (140°F) or above at all times. Monitoring Food Temperatures • Provide accurate thermometers to check internal food temperature on site.	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth Cooler(s) with ice or ice packs at booth Food will not require cold-holding Use a stove or oven at the booth with appropriate power supply Use a barbeque at the booth Other equipment, specify No need to cook or reheat Transport in insulated container(s) for hot foods Transport in warming unit(s) Use a stove or oven at the booth Use chafing dishes with adequate fuel supply Use insulated containers Other, specify Food will not require hot-holding Have probe thermometer to use at the booth Have additional thermometers to use at the booth e.g. Infrared
Cold-holding during Transport and On-site • Mechanical refrigeration preferred and may be required OR equivalent method to consistently maintain potentially hazardous foods at 4°C (40°F) or below at all times. • Maintain internal food temperature at 4°C (40°F) or below at all times. Cooking / Reheating • Foods to be cooked or reheated to an internal food temperature to 74°C (165°F) or above. Hot-holding during Transport and On-site • Maintain internal food temperature at 60°C (140°F) or above at all times.	cleanable and non-absorbent Transport in cooler(s) with ice or ice packs Transport in refrigeration/freezer unit(s) Mechanical refrigeration/freezer unit(s) provided by venue Mechanical refrigeration/freezer unit(s) at the booth Cooler(s) with ice or ice packs at booth Food will not require cold-holding Use a stove or oven at the booth with appropriate power supply Use a barbeque at the booth Other equipment, specify No need to cook or reheat Transport in insulated container(s) for hot foods Transport in warming unit(s) Use a stove or oven at the booth Use chafing dishes with adequate fuel supply Use insulated containers Other, specify Food will not require hot-holding Have probe thermometer to use at the booth

Should I fail to meet these requirements, in accordance to the *Food Premises Regulation B.C. Reg. 210/99 Section 6,* I understand that I will not receive approval to operate this food premises.

Signature of Applicant

Date of Application

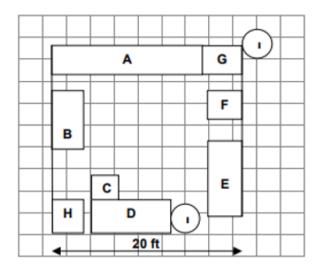

Event coordinators and Market managers are responsible to ensure application forms are submitted **14** days in advance of the event/market. Please return this application to the coordinator of your event/market. If there is no coordinator, please send the application directly to the health office on time. **Incomplete applications will not be approved.**

Permit fee is \$12.50 per month based on the number of months (partial or full) that the operation is open for business. Complete credit card information below. Cash, credit or debit payments are also accepted in person at the health office. An additional administration fee of \$50 will be charged for late applications.

A LAYOUT OF YOUR FOOD PREMISES WILL BE REQUIRED, SEE EXAMPLE:

Example Diagram

A – Customer order/service table

B - Refrigerator

C - Handwashing station

D - Food preparation table

E - Barbecue grill

F - Chafing dishes

G - Condiment table

H - Dishwashing double sink

I – Garbage containers

Set-up is on a concrete walkway Tent will cover entire set up

PLEASE PROVIDE A LAYOUT OF YOUR FOOD PREMISES OR EXTENSION OF YOUR MOBILE FOOD PREMISES BELOW:
